#### NH BioBlitz Needs Your Help Documenting Species

UNH Extension

Tuesday, August 10, 2021 • 12:00pm–1:00pm

During September 2021, UNH Extension needs your help finding and documenting species (plants, animals, insects, fungi) found on town-owned lands all over New Hampshire using iNaturalist. Town-owned lands in New Hampshire are really special places that many community members might not know about and towns are often lacking data about the species found on the properties they own. The goal is to record as many species in as many New Hampshire towns/cities as possible. This is a statewide event and you can participate on town-owned lands right in your own community! Join us to learn more about the September 2021 NH BioBlitz, using iNaturalist to submit observations, and finding town-owned lands to explore in your community. Go to [NatureGroupie](#) for more information and sign up.

- Additional properties we may need to monitor, or receive reports regarding. Evy will itemize.
- review our town web page

# Save the Date

## for the NHACC 50th Anniversary Celebration

**Saturday, September 11 from 9:30 am to 1:30 pm.**

**Bear Brook State Park Shelter Pavillion**

Don't miss the New Hampshire Association of Conservation Commissions (NHACC) 50th Anniversary Celebration. Join us for a day of fun with fellow conservation commission members. The event will feature storyteller Rebecca Rule who will talk about wildlife encounters, the woods, the lakes, and the relationship between newcomers and old-timers. Also joining us will be past NHACC executive directors, Tink Taylor and Carol Andrews. A picnic lunch will be served following the presentations. We look forward to this outdoor event where we can reconnect and celebrate our success.

**Next meeting 8/5/21 6:45 at library**
