STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

The Cheney Mill c.1940, was built on the original 18th century mill site. Still in operation by water power, this mill is an important industrial, archeological site as well as an important contributor to the quality of rural life in Kingston today. Mill started by Jabez Page with a land grant from King George. He willed a sawmill in the local area to each of his five sons. R. W. Cheney is a direct descendent.
