ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

The Poliquin House is a 1½-story victorian era structure featuring elements of the Queen Anne and Stick Styles, and with gable front orientation to the street. The 4-panelled entry door is sheltered by a 1-story, shed-roofed, 3x1 bay porch on the east side. Windows have two-over-one and two-over-two sash. The medium-pitched roof of the main block is topped by a tall corbel-capped chimney. Eaves treatment consists of a boxed cornice on the lateral and raking eaves, with a sloped soffit on the lateral eaves. The front (south) gable end has a 1-story, hip-roofed bay window with recessed panels above and below the lights. Decorative shingles have been applied to the gable above the bay window. An offset gable along the east elevation has the same decorative shingle wall covering. An offset gable along the west elevation is identical to this one.

A 1-story gable-roofed ell rests on a brick foundation. It has the same siding as the main block and a boxed cornice.

There is a small, 1-story, hip-roofed wing on the west side of the ell. It has the same siding and foundation as the main block, and a boxed cornice.

RELATED STRUCTURES AND CONTEXT: A recent 1½-story barn rests on a concrete block foundation. It has clapboard siding, six-over-one windows, and a boxed cornice with gable end returns.

BOUNDARY AND ACREAGE DESCRIPTION: .4 acres bounded to the N-Normand, S-Bartlett Street, E-Holland, W-Sykes.

STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

The E. Shaw house is a charming example of a small vernacular Queen Anne style structure with pleasing proportions and an exuberant use of cut shingles and stick work.
