ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

The Hanson House is a 2-story Federal style structure. The 4-panelled center entry door contains four lights and is flanked by fluted pilasters which rise to meet a semi-elliptical, denticulated doorhead. All windows have eight-over-one sash with architrave trim, and there is a picture window on the north elevation. The low-pitched roof is topped by one tall, narrow, chimney with a corbelled cap, and there is an exterior chimney on the west elevation. Eaves treatment consists of a boxed cornice with a molded frieze, and gable end returns.

A 1-story, gable-roofed enclosed porch rests on a cement foundation. It attaches to a 1-story, gable-roofed, 2-bay garage which also rests on a cement foundation.

RELATED STRUCTURES AND CONTEXT:

BOUNDARY AND ACREAGE DESCRIPTION: .54 acres bounded to the N-Brentwood, NH., S-Blair, Glenson, Kneller, Campbell, E-Christie, W-Marshall Road.

STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

The Hanson House contributes to the town's early 19th century building stock and is still in the Hanson family.

Historic Associations: The Hansons also owned woodlots and lumbered them for their steam-powered sawmill until c.1940 when the mill burned and was then torn down. There was a cooper shop on the land which was bought by Henry Ford and moved to Michigan.
