ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

The Hampton house is a 2½-story Greek Revival style structure. The sidehall entry has a 4-panel (recessed) door surmounted by transom lights and flanked by sidelights extending the full height of the door. Pilasters rise to meet an entablature. All windows are six-over-six with partial entablature. Treatment at the eaves consists of a boxed cornice with a wide frieze and gable end returns.

The 2-story gable-roofed ell has the same eaves treatment and windows as the main block. It also has a door flanked by sidelights.

There is a 1-story, flat-roofed porch on the north side of the ell.

RELATED STRUCTURES AND CONTEXT:

BOUNDARY AND ACREAGE DESCRIPTION: 1.5 acres bounded on the N-Ferrier, Bake, S-Braley, E-Keeley, W-Main Street.

STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

The A. J. Cilley House is very similar to Site #10 and was built at about the same time. It is a good example of a Greek Revival house in a rural residential setting.

Historic Associations:

Site of Cilley's & Sons carriage shops, one of the most important manufacturers in Kingston's history as a carriage-making center.

A Mr. Webster ran an ice cream shop here in the 1920's. The building used for the shop has since been moved to Hampstead.
