ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

A 1½-story vernacular structure built in the Victorian era, the Streeter House has gable front orientation to the street. The sidehall entry has a multi-panelled door with one large light, and is sheltered by a shed-roofed enclosed porch. All windows are two-over-one. The steeply pitched roof is topped by two chimneys, one with a corbelled cap. Cornice treatment consists of projecting lateral and raking eaves with a sloped soffit. There is a 2-story gable-roofed projection offset in the west elevation.

A 2-story, gable-roofed ell has the same cornice treatment, clapboard siding, windows with varying sash, and a concrete block foundation. There is a small 1-story, shed-roofed wing on the west side of the ell with clapboard siding that rests on a concrete block foundation.

RELATED STRUCTURES AND CONTEXT:

BOUNDARY AND ACREAGE DESCRIPTION: .4 acres bounded to the N-Bartlett Street, S-Bake, E-Keeley, W-Diamond.

STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

This charming turn-of-the-century vernacular house is one of five in a group on Bartlett Street which were built in approximately the same style and at about the same time. Each varies slightly in detailing. They form a remarkable group which gives Bartlett Street its distinctive character.
