ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

The Normand House is a vernacular structure built around the turn of the century featuring a gable-roofed porch supported by turned posts with brackets. The porch is attached to a 1-story veranda which extends along the east elevation. The sidehall entry has a 4-panelled door with four lights. All of the windows have two-over-two sash. A 2-story, bay window pierces the roofline of the west elevation. The medium-pitch roof is topped by a narrow chimney and the eaves treatment consists of a boxed cornice with gable-end returns. The main block rests on a brick foundation.

Projecting to the northeast is a 1-story, gable-roofed ell with clapboard siding, two-over-two windows, on a six-panelled door. Half of the ell rests on a brick foundation and the rest on granite slabs.

Projecting to the northwest is a 1-story, shed-roofed ell with clapboard siding, two-over-two windows, and rests on a brick foundation.

RELATED STRUCTURES AND CONTEXT: An attached 1½-story, gable-roofed barn projects to the northeast. It has clapboard siding, a vertical-board door, and a fieldstone foundation. Two attached 1-story sheds extend from the barn, one to the east and the other to the west.

BOUNDARY AND ACREAGE DESCRIPTION: .6 acres bounded to the N-Kramer, Balter, Bake, E-Bake, Sykes, Holland, S-Bartlett Street, Sykes, Poloquion, W-Bake.

STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

The C. D. Long House is part of a group of five related vernacular houses on Bartlett Street, built at approximately the same time. It has many features such as the porch and 2-story bay in common with Site #13, yet it has its own distinctive character.

Historic Associations: 1892: C. D. Long

In the early 20th century, a Mr. Beals lived here. He ran steam engines at L.W. Collin's shoe factory across the Plains.
