### ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

The Harlow House is a vernacular house which was altered by later remodeling. The center entry has a multi-panel and multi-light door sheltered by a small gabled door hood. Most of the windows are new, with six-over-six sash. A new oriel window with sidelights is located on the gable end. The medium-pitch roof has close raking and lateral eaves and is topped by a narrow central chimney with a corbelled cap. The main block rests on a fieldstone foundation.

A 2-story, gable-roofed ell extends to the south and west. It has clapboard siding, the same cornice treatment as the main block, and rests on a fieldstone foundation. To the northwest is a 1-story, gable-roofed wing with clapboard siding and new arched windows.

**RELATED STRUCTURES AND CONTEXT:** There is a separate 1½-story, gable-roofed barn located to the north. It has clapboard siding, large double doors with sidelights and an oriel window on its front facade. An attached shed extends to the south of the barn. A separate shed is located to the northwest.

**BOUNDARY AND ACREAGE DESCRIPTION:** 3.2 acres bounded to the N-Rte. 125, S-Magnosan, E-Main Street, W-Levesque.

### STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

Site 53 survives as an example of late 18th century agricultural complex. In deteriorating condition, this building is threatened by its own decomposition.
