ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

1 Although this 2-story house is believed to have been built during the early 20th century, its format shows the influence of the Greek Revival style of the mid-to late 19th century. Its multi-light sidehall entry door is sheltered by square columns. Windows are two-over-one and the south, east, and west elevations each have one hip-roofed bay window with recessed panels above and below the lights. The medium-pitched roof is topped by a chimney and a shed-roofed wall dormer. Eaves treatment consists of a boxed cornice with gable-end returns and a narrow frieze.

A 1-story, gable-roofed ell has a tall chimney with a corbelled cap, clapboard siding, two-over-two windows, a brick foundation, and an enclosed 1-story, hip-roofed porch. Another 1-story, gable-roofed ell has the same siding and cornice as the other ell.

RELATED STRUCTURES AND CONTEXT: A separate one story gabled-roofed garage has shiplap siding, projecting eaves with fascia, and two-over-two windows.

BOUNDARY AND ACREAGE DESCRIPTION: .4 acres bounded to the N-Moore, S-Rockrimmon Road, E-Coan, W-Dupell.

STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

The G. Stevens House displays the popularity of the 1½ story, sidehall plan invented c. 1820, by building in this style in 1910.

Historic Associations: The house was owned by George Stevens, selectman and fire chief. He had his insurance office in the house.
