ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

A 1½-story Greek Revival style house, the Therrien House features an unusual cut and recessed corner supported by a square, wooden column which echo' the pilaster on the other side. The 4-panel entry door is flanked by sidelights which extend to floor level. All of the windows in the main block are six-over-six with pedimented lintels. Eaves treatment consists of a boxed cornice with gable-end returns supported by corner pilasters.

The 1-story, enclosed, 8-bay porch to the east has a multi-light entry door, and rests on a cement foundation.

The 1-story, shed-roofed ell has a stone (with cement) foundation, clapboard siding, two-over-one and fixed six-light windows.

The small shed-roofed ell behind that rests on a cement foundation.

The 1-story, shed-roofed porch on the west side has clapboard siding, projecting eaves, and a cement foundation.

RELATED STRUCTURES AND CONTEXT: A separate 1½-story, gable-roofed barn has clapboard siding, a large horizontally sliding vertical-board door, and a hayloft door. It has a shed-roofed garage attached to one side, and a shed attached to the other side.

BOUNDARY AND ACREAGE DESCRIPTION: 3.35 acres bounded to the N-Snow, S-Newton Junction Road, E-Lewis, Dempsey, W-Daley, Episcopal Church.

STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

The J. S. Moody House is an exquisite example of vernacular Greek Revival architecture. It is small but well proportioned, achieving a monumental effect through its use of heavy corner pilasters and entablatures, and recessed corner entry. It makes a significant contribution to the South Kingston historic area.

(Vinyl siding applied after photo was taken.)

MAP DATA: 1892: J. S. Moody

SURROUNDING ENVIRONMENT: Open Land ☒ Woodland ☒ Scattered Bldgs ☒ Moderately Built Up ☐
