### ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

Originally built in Federal period, the Hooper house today is characterized by its irregular fenestration and floor plan. There are three entry porches. The one on the south side has a steeply pitched saltbox roof containing a 4-panelled, one light door. It has a fieldstone foundation. A 1-story enclosed porch on the front facade has a shed roof. Another 1-story enclosed shed-roofed porch is attached to the north side of the ell.

Windows in the main block are two-over-two. The medium-pitched roof of the main block is topped by a tall chimney with a corbeled cap, and the eaves treatment consists of a boxed cornice with gable end returns. The main block rests on a fieldstone foundation.

A 1½-story gable-roofed wing to the north has clapboard siding, two-over-two windows, a picture window on the north elevation, and close lateral and raking eaves. It rests on a fieldstone foundation.

**RELATED STRUCTURES AND CONTEXT:** A separate gable-roofed garage with shed to northwest has asphalt-shingle siding, fixed one and eight light windows, and a fieldstone foundation.

Two other small outbuildings.

**BOUNDARY AND ACREAGE DESCRIPTION:** 2.5 acres bounded to the N-Hackett, S-Roberts, E-New Boston Road, W-Hackett.

### STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

The J. Bartlett House may indeed have its origins in the Federal period; however, its present appearance is more closely associated with the Bungalow style. The site as well reflects this early 20th century period.
