ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:

The Oakes house is a 2-story structure built in the late 19th century, with two prominent two-story bay windows. The center entry has a multi-panel and light door with architrave trim, and is located within an open shed-roofed porch. Supported by turned nonderivative columns. The bay window on both sides of the porch two over one and thin one over one windows with recessed panels below. Other windows are two over one. The medium-pitched roof is topped by two chimneys, and the treatment at the eaves is a boxed cornice with gable end returns.

A one and one half story gable-roofed ell has a brick foundation, clapboard siding, small one over one windows, and a boxed cornice with gable end returns. A one story ell off this ell has a concrete foundation, clapboard siding, and an attached one story shed-roofed entry porch.

RELATED STRUCTURES AND CONTEXT: There is an attached one and one half story gable-roofed barn with vertical-board siding, nine over six windows, and a boxed cornice with gable end returns.

BOUNDARY AND ACREAGE DESCRIPTION: 2.4 acres bounded to the N-Clark, S-Kezar, Sander, E-West Main Street, W-Clark.

STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):

The Frank Parker House is a good example of turn-of-the-century vernacular building. The symmetry is nice... the porch posts, however, seem hardly substantial enough to sustain the weight of the porch.

Historic Associations: House was built by Frank Parker, a partner with Bakie in the Exeter Lumber Co.

SURROUNDING ENVIRONMENT: Open Land _ Woodland _ Scattered Bldgs _ Moderately Built Up _ Densely Built Up _ Residential _ Commercial _ Industrial _ Agricultural _ Roadside Strip Development _ Other _
