ADDITIONAL ARCHITECTURAL AND STRUCTURAL DESCRIPTION:
The Eastman House is a 1-story, twin chimney Federal Cape style structure. The 4-panelled center entry door contains one large light. Windows have two-over-two sash and are flanked by shutters. The low-pitched roof is topped by two end-placed, corbel-capped chimneys, and the eaves treatment consists of a boxed cornice.

A 1-story, gable-roofed wing on the southwest elevation rests on a cement block foundation. It has the same cornice, siding, and windows as the main block.

A 1-story, gable-roofed wing on the northeast elevation has board and batten siding and rests on a cement block foundation.

RELATED STRUCTURES AND CONTEXT: An attached 1-story, gable-roofed, 2-bay garage has board and batten siding.
A separate 1/2-story gambrel-roofed garage has board and batten siding and rests on a cement foundation.

STATEMENT OF SIGNIFICANCE (Evaluation & Historical Associations):
The main block of the N. Smith House is a squat cape built at the height of Federal period. With its symmetrical wings and garage, it forms a prominent visual anchor on the road to Exeter.
